

October is National Orthodontic Health Awareness Month!

To celebrate, WQAD and McManus Orthodontics are holding a coloring contest where 20 lucky winners can win a **\$25 Amazon gift card!** Each winner's school will also receive a \$50 gift card for supplies!

To enter, kids can color any one of the enclosed coloring pages, and a parent or guardian can fill out the form at the bottom and send the pages in through mail or email:

Coloring Contest
3003 Park 16th Street
Moline, IL 61265
contest@wqad.com

Deadline to enter is October 22, 2024.

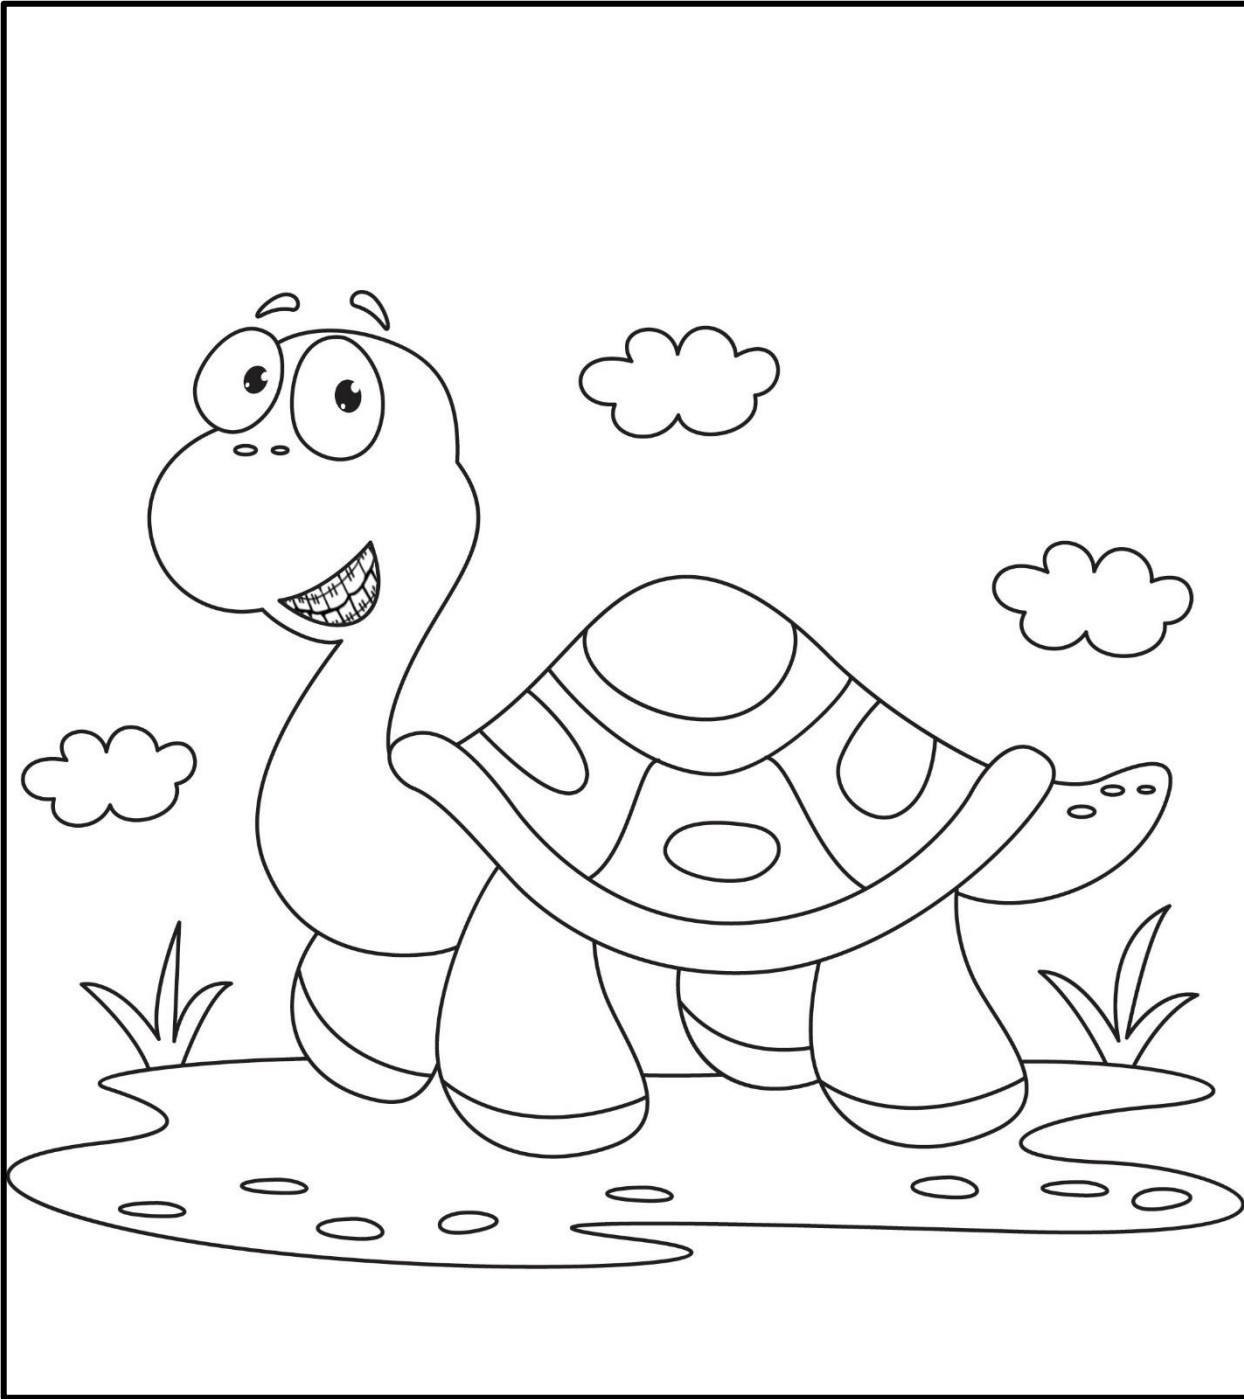

Please distribute to your students for a chance to enter.

To help celebrate National Orthodontic Health Awareness Month, here are a few fun tooth facts to share!

- **Because they are covered in enamel, which is not living tissue, teeth are the sole portion of the human body that cannot heal itself.**
- **Tooth enamel is the hardest part of the entire body; even harder than bone!**
- **Your mouth can produce up to 730 liters of saliva per year.**
- **No two people have the same set of teeth; they are as unique as your fingerprint.**
- **The longest human tooth ever found was extracted in Singapore in 2009 and measured 1.3 inches in length!**
